

Amendments to the Specification:

Please amend the paragraph starting at page 8, line 16, to read as follows:

One end of the rotary shaft 14 is let through the bearing 34a of the rear plate 32 so that the rotor assembly 10 and the stator assembly 20 are placed over the rear plate 32 and the other end of the rotary shaft 14 is let through the bearing 33a of the front plate 31 so that the front plate 31 is placed over the rotor assembly 10 and the stator assembly 201. The front plate 31 is made of a thermoplastic resin such as [[FBT]] PBT resin which is also used in the fabrication of the stator assembly 20.
